LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

It started with physics, and ended the earth. Aiden and Jess thought they were only doing experiments with light. They had no idea what would happen when they broke its laws while bouncing a laser off the moon. Using jumps through time Aiden tried to fix what he broke and save humanity, only to draw others into his ruined future.

The game uses portal mechanics, hand-painted environments, and clever puzzles to tell the tale of Soli, a young wizard, on his quest to save his world. After a widely successful Kickstarter campaign, the game is scheduled for release on May 2020. Most of the mechanics are complete, including ten types of interdimensional portals with unique properties and an alternate ending (but more on this later).
